**1. Examiner's Statement of Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance: Claims 1-6 and 10-14 are allowed because the prior art fail to teach a thermal conductivity detector wherein at least one of the two carriers is configured such that a minimum distance to the other carrier is larger in the central region of the channel than in a region nearer to the channel wall, in combination with the remaining limitations of claims 1-6 and 10-14.

2. Claims 7-8 are allowed because the prior art fail to teach a thermal conductivity detector wherein at least one of the conductive carriers has a concavity in at least the central region of the at least one conductive carrier, in combination with the remaining limitations of claims 7-8.

3. Claim 9 is allowed because the prior art fail to teach a thermal conductivity detector wherein at least one of the conductive carriers is mounted to distend away from the area when the detector temperature rises to an operating temperature, in combination with the remaining limitations of claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
